Playing a Sound File

Starting the Playback

To play a sound file, open the file to be played, and then click on the  button or select "Playback – Play". The application starts playing the file either from the current position or from the beginning if the current position is set to the end of the file.

Pausing the Playback

To interrupt the playing of a sound file, click on the  button or select "Playback – Pause". To resume a paused playback, click on the  button or select "Playback – Pause".

Moving Within a File

To move forward or backward in a sound file, you can use the slider or the  and  buttons. You can also move right or left with a fixed step using the  and  buttons.

Changing the Playback Speed

Changing the playback speed can be useful for quick searches. To change the playback speed of a sound file, use the  buttons, which are visible during playback. To increase the speed, click on the  button, or from the "Playback – Speed play" menu. To decrease the speed, click on the  button, or from the "Playback – Speed Play" menu. To restore normal speed, click on the "x1" button, or from the "Playback – Speed Play" menu.

Stopping Playback

To stop playing, click on the  button or select Audio – Stop.
