- Find data in files

Annotations for the main window:

- RECORD
- PAUSE
- STOP
- Displays channel recording levels of active channels.
- Confidence monitoring of a recording allows you to listen to a recording as it is being made.

Menu	Use this menu to...
File	Create/open/close files, display file properties, burn a file, exit the program.
Audio	Record, pause, stop, split files, broadcast, work with a remote agent, display the ASIO Control Panel, set the channels being played, enable confidence monitoring and the use of a PA system, enable channel-mixing mode for playback.
View	Show/hide different options (i.e. toolbar, tooltips, always on top, PA System information, confidence monitoring, etc.), switch to a different type of view, customize the font, customize the toolbars, and set configuration options.
Tools	Display the Playback window, insert special symbols, define text-substitution shortcuts, create and use predefined bookmarks, find text in files, export/import configuration options.
Help	Display online help, display program and registration information, check the status of mirroring, activate the trace facility.

*Quick Reference - Bookmarks Window*

**Working with Bookmarks**

*Creating a new bookmark:*

1. Use the F2 shortcut, click the  button on the bookmark toolbar, or from the Edit menu, select "New Bookmark".
2. A new bookmark appears in the list and you are placed in the first field below.
3. Type the information you want to store in the new bookmark.

*Creating a Sealed Bookmark:*

You can use sealed bookmarks to seal or protect parts of a recording. Sealed sections of a recording require a password for them to be played.

To seal part of a recording, click the  button on the bookmark toolbar, or from the Edit menu, select "Begin Seal". The recording will be sealed until an End Seal bookmark is encountered. To create an End Seal bookmark, click the  button on the bookmark toolbar, or from the Edit menu, select "End Seal".
